Experience

- 2026 - present **Freelance Software Engineer - Mobile & Web, Remote.**
Developing mobile and web applications using Flutter, Native Android (Kotlin), and Next.js.
I collaborate with startups, companies and people to design and build digital products, with a strong focus on architecture, performance, and user experience.
- 2021 - 2026 **Senior Android Engineer, Technogym, Cesena (Full Remote).**
Developing and deploying Android code in Kotlin and Java for the creation, improvement and fixing of high-level applications installed on physical equipment (like tapis roulant, bike and other gym-related equipment).
Technogym is currently the leader of the gym equipment around the world.
- 2017 - 2020 **Senior Android Engineer, Pillo Labs S.r.l, Genoa (Italy).**
Designing, developing, and deploying Android code in Java and Kotlin for the creation of a smart Pill Dispenser, focusing on using the latest technologies to achieve the best software engineering practices.
Pillo was a high impact product, it aimed to help people following their medication therapies acting as an assistant robot that dispenses the right pills at the right moment, thanks also to its mobile notifications support.
- 2014 - 2017 **Android Developer, ETT S.p.a, Genoa (Italy).**
Developing Android applications in Java for several new media clients in the cultural field (mainly museums).
Among the several technologies used: *Beacon* and *Samsung Knox API*.
Main Clients:
 - o *Samsung Showroom (Milan)*
 - o *Museo Egizio (Turin)*
 - o *Acquario di Genova (Genoa)*
- 2013 - 2014 **Android Developer, Trilogik Soluzioni Informatiche S.r.l, Genoa (Italy).**
Developing Android applications for supporting sales agents.

Technical skills

- o **Mobile Development:**
 - o **Android (Native):** Kotlin, Java, Coroutines
 - o **Cross-platform:** Flutter (Dart)
- o **Architecture & Patterns:** Clean Architecture, MVVM, MVI, Repository pattern.
- o **Android Stack:**
 - o Jetpack (ViewModel, LiveData, Navigation, Room)
 - o Asynchronous programming: Coroutines, Flow
 - o Dependency Injection: Hilt
 - o Networking: Retrofit, Kotlin Serialization
 - o Media & Utilities: Glide, Timber
- o **Backend & Cloud:** Firebase (Auth, Firestore, Cloud Messaging, Analytics, Storage, Remote Config)
- o **Data Persistence:** Room, SQLite, Realm.
- o **Version Control & Collaboration:** Git, GitHub, Jira.
- o **Development Process:** Agile / Scrum, Code Review, CI/CD pipelines.

Personal skills

- o Strong empathy and ability to understand team dynamics
- o Mentoring and technical support to team members
- o Pragmatic, people-focused approach to development
- o Clear communication and strong problem-solving mindset

Education

- 2010–2016 o **Bachelor's degree in Computer Science**, *University of Genoa*, Genoa, Italy.
- 2023-2024 o **First-level Master's degree in Computer Criminology**, Giustino Fortunato Telematic University, Italy

Personal Projects

- SpazioAlessia**
Android, iOS, Web
Creator of “SpazioAlessia”, a Flutter-based web project focused on transformation, self-expression, and identity exploration in a welcoming and respectful environment.
www.spazioalessia.com.
Google Play Store [link](#).
Apple Store in review.
- ScratchyMapp**
Android, iOS
“ScratchyMapp” is an iOS and Android mobile application built with Flutter, allowing users to mark visited countries, compare statistics with friends, and compete through gamification.
Google Play Store [link](#).
Apple Store [link](#):
- L'Impostore**
Android, iOS
“Who is the Impostor?” is a social deduction game built with Flutter, designed for group play and investigative interaction.
Google Play Store [link](#).
App Store [link](#).

Fluxy “Fluxy” is a Flutter-based web application designed for project and task management, inspired by tools like Trello and Jira. It allows users to create projects, define customizable workflow stages, and manage development tasks through an intuitive board-based interface.
Web <https://fluxy-92e8b.web.app/#/login>

Sara Ascolto e Sostegno Professional website built with Flutter for a counselor and family mediator based in Genoa, offering psychological support services, courses, events, and contact information.
Web www.saraascoltoesostegno.it

Bachelor’s Thesis Implementation of an Android application simulating MQTT-based communication with multimedia messaging on Google Maps.

Master’s Thesis “*The Impact of Social Media on Social Deviance and Crime*” - analysis of digital platforms and online criminal behaviors.

Additional legacy Android projects developed in Java are available upon request.

Languages

Italian **Mother tongue**
English **Professional working proficiency**

Personal Interests

Content creation, travel and photography.
Electronic music producer with releases on national and international labels.
Personal mobile side projects and continuous experimentation.
Latin dance (Bachata).

In compliance with the Italian legislative Decree no. 196 dated 30/06/2003,
I hereby authorize you to use and process my personal details contained in this document.
